### Mushroom Kits!

Mushroom Kits are a fun present for kids or adults. Grow your own Portobello, White Button or a Combination of both at home. Each box contains everything you need to grow the mushrooms, including compost and castings.

From only \$12.20, these kits produce several crops over 3 months . . . they're great value and FUN!

Simply place the box in a dark spot such as a garage or laundry. Spread the casting over the compost, once it begins to turn frosty white, spray with a mister every 2-3 days.

Also available are Mushroom & Herb Kits. Simply sow provided Parsley, Basil, Spinach or Coriander seeds into the remains of the mushroom compost after the mushrooms have finished growing. Move the box outside so your herbs can grow in the sunlight, then harvest and enjoy when ready. A great combination Kit.
